

AgentSine & AgentDutyCode

To Install CultBooking OpenSource on your webserver Successfully, AgentSine and AgentDutyCode are required.

It is very simple to get AgentSine and AgentDutyCode, Register your hotel with "Cultuzz" using CSI(Customer Support Interface).

Browse <http://www.cultuzz.com> -> Click On Login

The screenshot shows the Cultuzz website interface. A callout bubble labeled "Login" points to the "Login" link in the top navigation bar. The website features a sidebar with links to various product suite components and a main content area with several news articles. The sidebar includes links for "Cultuzz Product Suite" (Overview, CultSwitch, CultBay, CultBooking, CultDesk), "The best hotels on eBay worldwide", and a list of references. The main content area displays three news items: "Cultuzz connects Amadeus, Sabre, Worldspan, Galileo and Pegasus to CultSwitch" (dated 22 Sep 2009), "Cultuzz is connected to the new HRS XML-interface" (dated 17 Jul 2009), and "RatesToGo - Another strong partner in the Cultuzz network" (dated 23 Apr 2009). Each article includes a brief description and a link to the full press release.

Select CultBooking In the following 4 options:

What are the products you are interested in?*

- ☐ CultBay
- ☐ CultBooking
- ☐ CultSwitch
- ☐ HotelResort.in

On successful installation page will be redirected to Login Screen.

Please provide your User name and Password :

The login form has a blue header with a lock icon and the text "Enter your Login data". Below the header, there are two input fields: "Username:" with the value "username" and "Password:" with masked characters (dots). A "Login now" button is located at the bottom right of the form.

Click on Booking Data (Left panel)

The screenshot shows the CultuZZ application interface. On the left is a navigation panel with a tree view. The "Booking data" section is expanded, showing "CultBooking OpenSource" as the selected item. The main content area displays a welcome message and account data. A callout box highlights the "AgentSine" and "AgentDutyCode" fields.

AgentSine & AgentDutyCode

Welcome to your personal Customer Service Interface.
Ms. Sailaja Gudala - Spring Test 123 (Objekt-Id 2918)
Your contact is: Dr. Reinhard Vogel

Your CultBooking-OpenSource account data:
AgentSine: xxxxxxxx
AgentDutyCode: xxxxxxxx

If exist, please insert the location where your local CultBooking installation is resisted.
CultuZZ will automatically send updated informations to your CultBooking installation via these URL.

Please select the protocol type of your local installation here.
HTTP ☒ HTTPS ☐

Please insert your URL without 'http://' or 'https://' in the textfield

OK

Click on Settings -> CultBooking OpenSource

You can find Your CultBooking-OpenSource account data:

AgentSine: XXXX

AgentDutyCode: XXXXXXXXXXXXXXXXXXXX

In the CSI, there is a Menu on the left hand side. Each of the Menu Item is useful to you, to maintain your data with our Centralized Database called "CultSwitch".

Picture Administration : Helps you to upload your Hotel pictures as well as your Hotel Room pictures.

File Administration : Helps you to upload your Hotel relevant "Terms and Conditions".

Products -> Cancellation Conditions : Helps you to create the Cancellation Conditions followed by your Hotel.

Products -> Elements : Helps you to create the available Room Types in your Hotel.

Booking Data -> Rates -> Room Rates : Helps you to maintain your prices for each of your added Room Type.

Booking Data -> Availability : Helps you to maintain the availability calendar of your Hotel.

NOTE : On the CSI pages, you will find that there is a ID called Objekt ID on the top of every page, whose value is nothing but the HotelCode, for the CultBooking OpenSource.

Once you are done with all the above steps, you are ready to use your CultBooking OpenSource Booking Engine and make your Hotel Booking.
