## This Page Is Valid XHTML 1.0 Strict!

Tip Of The Day:

[Use headings to structure your document](#)

The uploaded document "webdeveloper\_192.168.1.111\_1143910808281.html" was checked and found to be valid XHTML 1.0 Strict. This means that the resource in question identified itself as "XHTML 1.0 Strict" and that we successfully performed a formal validation using an SGML or XML Parser (depending on the markup language used).

To show your readers that you have taken the care to create an interoperable Web page, you may display this icon on any page that validates. Here is the HTML you could use to add this icon to your Web page:

```
<p>
  <a href="http://validator.w3.org/check?uri=referer"></a>
</p>
```

If you like, you can download a copy of this image (in [PNG](#) or [GIF](#) format) to keep in your local web directory, and change the HTML fragment above to reference your local image rather than the one on this server.

If you use [CSS](#) in your document, you should also check it for validity using the [W3C CSS Validation Service](#).
